Rock Steer Walker 9,950	9,950 lbs	29,700 lbs	6'0" x 6'0" x 6'0"	\$99,500
Rock Steer Walker 10,050	10,050 lbs	30,000 lbs	6'0" x 6'0" x 6'0"	\$100,500

TS-03

1000

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. The second step is to gather relevant information and data. This can involve research, consultation with experts, or collecting data from various sources.

3. The third step is to analyze the information and data collected. This involves identifying patterns, trends, and relationships that can help in understanding the problem.

4. The fourth step is to develop a solution or answer. This involves applying the knowledge and skills gained from the previous steps to create a plan or strategy that addresses the problem.

5. The fifth step is to implement the solution and evaluate the results. This involves putting the plan into action and monitoring the progress to ensure that the problem is solved effectively.

PLATE 1

[illegible]
